# C-SHAPE STAIRCASE KIT

A C-Shape Staircase can also be space maximising design and used in a square area. If you are constructing a new home, or renovating your existing, there are various designs to consider which some meet functional needs, and some meet aesthetic needs of interior design. Not all staircases benefit from both.

A C-Shape Staircase design can be great for maximising spaces within a small area but isn't always aesthetic pleasing to use! The C-Shape Staircase unless designed well using width as a key design point, can feel slightly space restricted whilst using. The C-Shape design can have different landing options depending on your space.
