ASH TREADS

# STRAIGHT WITH LANDINGS

## STAIRCASE KIT

The Straight With Landings designs can be made up of a landing option at the top or base of the staircase, either by using one quarter landing or styling it with Splits (2 Steps) or Kites (3 Steps, also sometimes known as winders). This design feature is mostly done purely for aesthetic reasons and if space is not restricted in the stairwell area.

The other design option of course is to have a straight flight in the centre of the staircase design with landing options at the top as well as the base of the staircase design. This sometimes ends up looking more similar to the C-Shape design but using a different configuration of tread styles.

All our staircase designs are custom made to suit your room size and interior needs.

View our gallery on the following page to get some inspiration for your Straight With Landings staircase design.
