U-SHAPE STAIRCASE KIT

U-Shape Staircases are a variation of the L-Shaped stair design and they can be designed with more landing options, including the half landing which is where the stairs take a 180° turn by one landing and connect a straight flight heading in the opposite direction. This design is appealing and takes up less floor space than the L-Shape Staircase design.

Although this design is space maximising and more aesthetically laid out, it does also come with disadvantages such as getting large or bulky items from one floor to the next which is something to consider when choosing your staircase design!

View our gallery on the following page to get some inspiration for your U-Shaped design staircase.
